Statement of Significant Accounting policies and Other Explanatory Notes

A. Accounting Policies

a) Basis of Preparation

The Financial Statements have been prepared to comply in all material respects with the notified accounting standards by the Companies Accounting Standards Rules, 2006, as specified in section 133 of the Companies Act, 2013 read with rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013. The financial statements have been prepared under the historical cost convention, on an accrual basis of accounting.

The classification of assets and liabilities of the company is done into current and non current based on the operating cycle of the business of the company. The operating cycle of the business of the company is less than twelve months and therefore all current and non-current classifications are done based on the status of realisability and excepted settlement of the respective asset and liability within a period of twelve months from the reporting date.

b) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

c) Inflation

Assets and liabilities are shown at historical cost except revalued assets, which are shown at revalued amounts. No adjustments are made for changes in purchasing power of money.

d) Fixed Assets

Tangible assets are recorded at cost of acquisition or construction less CENVAT/Service Tax/VAT credit availed. Revalued assets are recorded at revalued amounts.

e) Depreciation, Amortisation and Impairment :

Depreciation on assets of the Company is charged on straight line method except Leasehold Land on which no depreciation is charged, over the estimated useful life of asset as specified in Schedule II to the Companies Act, 2013 or the useful life assessed by the management which ever is lower for the proportionate period of use during the year.

f) Taxation

Tax expenses comprise Current Tax and Deferred Tax.:

I. Current Tax:

Current Tax is calculated as per the provisions of the Income tax Act, 1961.

II. Deferred Tax:

Deferred Tax is recognized on timing differences being the differences between the taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred Tax Assets, subject to the consideration of prudence are recognized and carried forward only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such Deferred Tax Assets can be realized. The tax effect is calculated on the accumulated timing difference at the year-end based on the tax rates and laws enacted or substantially enacted on balance sheet date.

g) Provisions, Contingent Liabilities and Contingent Assets

A provision is recognised when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent Liabilities are not recognised but disclosed in notes to accounts.

Contingent assets are neither recognised nor recorded in financial statements.

h) Cash and Cash Equivalents

Cash and cash equivalents in the Balance Sheet comprise cash at bank, cheques on hand, cash in hand and short term investments with an original maturity of three months or less.
